

PROCESSING & PACKAGING -THE HIGH-TECH ITALIAN WAY will exhibit at "Gulfood Manufacturing" 2018 trade show, which is going to take place November 6<sup>th</sup> - 8<sup>th</sup> 2018 at Dubai World Trade Centre, in Dubai (UAE).

Gulfood Manufacturing is the region's biggest food and beverage processing industry event, that will connect you with suppliers from 60 countries showcasing the latest F&B manufacturing business improvement tools.

PROCESSING & PACKAGING -THE HIGH-TECH ITALIAN WAY is a network of industry-leading companies in processing and packaging which enables the market the expertise, effectiveness and exhaustiveness of a one-stop-shop service.

The Italian companies joining the network stand out for their expertise and innovative projects; they are present on several markets to provide all the clients with comprehensive technological solutions and to optimize their business.

A complementary network shaped by companies representing the Italian excellence in processing and packaging, able to compete in the global market with all international big players. Processing & Packaging -The High-Tech Italian Way- gives clients the chance to benefit from top technological solutions by industry-leading companies and the possibility to refer to a unique partner for all the manufacturing needs, with a comprehensive range of integrated solutions and an unmatched Made-in-Italy technology.

The network companies:

CAMA GROUP is a leading supplier of advanced technology secondary packaging systems, continuously investing in innovative solutions;

CLEVERTECH S.p.A., headquartered in the North of Italy, markets engineered front & end-of-line solutions. The company operates in the food & beverage, home care, pet food and personal care sectors;

RONCHI MARIO S.p.A. is specialized in finding the specific solutions for solving any requirement. Fillers, Cappers, Unscramblers, Orientors are Ronchi's principal products.

MAKRO LABELLING S.r.l. is an Italian supplier of industrial labelling machines in beverage, food, home-personal care and pharmaceutical sectors.

During "Gulfood Manufacturing" 2018 Makro Labelling will present to the Middle Eastern market MAK RLF, which is the new serie of rotary labellers for different formats of PET bottle. The use of wrap-round plastic labels on a reel with hot melt application has maximum economic benefits for production compared to traditional OPP or pre-cut paper labels. The modularity of the MAK Roll Feed, a particular feature of Makro Labelling technology, enables the roll feed unit to be replaced with a hot melt unit for pre-cut, wet glue or self-adhesive labels, satisfying the need for maximum production and configuration flexibility. Designed for the high-volume PET labelling market (water and soft drinks sectors in particular), MAK Roll Feed labellers offer a production speed of 6,000 b/h to 40,000 b/h.
